

## Cannaverse Platform Compliance Disclaimer

**Effective Date: 5th April 2025 Version: 1.1**

### RECOMMENDATION BY COMPLIANCE STRATEGISTS – H3 LEGAL SOLUTIONS

This document outlines the recommended disclaimer for use on the CANNERVERSE platform during its monitored trial phase. This language is designed to protect the platform's legal standing while ensuring transparency and compliance with South African legal standards.

### RISK MITIGATION STRATEGY

*This disclaimer ensures:*

- The intent of legal compliance is publicly visible
- Any future enforcement or scrutiny can be met with proof of good faith, strategic oversight, and non-commercial operation
- All trial phase activities are documented, monitored, and traceable to compliance-aligned frameworks

### CANNERVERSE: COMPLIANCE IN PROGRESS

CANNERVERSE is currently operating in a monitored trial phase under the ongoing legal and compliance oversight of H3 Legal Solutions. During this time, all platform activities — including data handling, store listings, user interactions, and system design — are being actively assessed for alignment with the following:

- South African Constitutional Privacy Rights
- Protection of Personal Information Act (PoPIA)
- The Privacy Judgment on adult cannabis use
- Non-commercial access models such as Private Cannabis Clubs (PCCs) and Section 21 medical pathways

### PURPOSE OF THE PLATFORM

CANNERVERSE is **not a commercial sales portal**. It functions as a **community connection platform**, linking cannabis users with verified cannabis enterprises in a **closed-loop, privacy-compliant, and harm reduction-oriented** manner.

All content, listings, and operational mechanisms are subject to **structured legal design** and **continuous compliance evaluation** as part of this trial rollout.

### Oversight Provided By:

**H3 Legal Solutions™**

Strategic Compliance | Legal Risk Mitigation | Industry-Driven Operational Architecture
